

CO-CURRICULAR TRANSCRIPTS

Keep an official record of your involvement

Co-curricular transcripts serve as a record of social, athletic, leadership, service and educational experiences while at Rose State College.

Activities are approved under the following six categories: athletics, service learning, leadership training, scholarships, awards & honors, clubs & organizations and professional experiences. Rose State College reserves the right to add additional categories as needed.

Students should enter individual involvement based on these categories using this [link](#). Entries are saved with the ability to update and students must enter a RSC staff or faculty member as a reference who can verify the student's participation in various events and/or programs.

When ready, a student may then request an official transcript to be printed at the following email: cocurriculartranscript@rose.edu. The printed Co-Curricular Transcript is an official document with the college seal and signed by the Director of Student Engagement. Students can present or submit their co-curricular transcript along with a resume and academic transcript when applying for scholarships, internships, employment opportunities and college and universities.
