

ROSE STATE COLLEGE

Medical Lab Technology Program Licensure by State

State Licensure is granted by individual states. At this time, Oklahoma does not license clinical laboratory personnel. Completion of the Rose State College Medical Laboratory Program does not guarantee that a graduate will meet all state licensure requirements. Students who are thinking of working in a state that has licensure for clinical laboratory personnel should contact that state's licensing board as early as possible for information on the state's requirements	Meets Licensure Requirements for MLT	Does Not Meet Licensure Requirements for MLT	Has Not Been Determined to Meet Licensure Requirements for MLT
