b. Presentation by Mr. Ken Dewey regarding concerns related to compensation and institutional procedures. *Informational item only. (R&T)*

President Hurst recognized Mr. Ken Dewey and invited him to the podium to provide a requested presentation, noting that Mr. Dewey would have a maximum of five (5) minutes to address the Board.

Mr. Dewey stated:

“Thank you very much for allowing me to speak to the Board. One of the items I specifically mentioned — the compensation — has been taken care of. It was just that I didn’t understand how it was being paid. I got with Human Resources, and it has been solved. It was just the way it was presented that wasn’t clear to me.

I asked to speak about a couple of policies, and one of the policies that affects me greatly is the way Rose State handles files and emails. When I retired in January, I asked to have access to my personal files and also my Rose State email. Since I was a director here for 25 years, I had a lot of emails with personal information and emails pertaining to CEUs — continuing education credits — for my certifications.

I asked for those back in January of 2025. In the spring of 2025, at the end of the spring, I was given access to my Google Drive files, which had some of the items. The way I received them was a little strange — I literally received a box with most of them printed out — but that was fine, and I did receive those.

In August, after multiple requests through Human Resources, directly, through Bill, and even in person, I still had not received my OneDrive files, which include my email and my personal documents, including resumes and CEU documentation. In August, I requested to visit with the Regents, and nearly immediately after that, IT Services started collecting my files. I can tell by the dates.

From January to August, I feel like the requests were ignored. In August, they did start gathering the files, and I was provided a flash drive last week — around November 20. So, nearly 11 months after my request, I finally received this. I reviewed the files, and my emails are not on there. My personal documents are not on there. Many of the documents show an error message stating the file is too large. So, the majority of the documents are not actually accessible.

I would be happy to provide the flash drive back to IT Services for review, but as of today, 11 months later, I still do not have access to my emails. I specifically need them for my CISSP certification, as all of my CEUs and conference documentation are included there, and I cannot submit them without those records.

One other thing I want to mention is informational. Rose State holds a Center of Academic Excellence certification, which we've had for many years. I initially applied for it and maintained it. There is an annual report due in January, and next January Rose State is up for full recertification.

Without that certification, Rose State would no longer be able to apply for NSF grants or GenCyber grants, and a lot of funding would not continue. One of the requirements is having a CISSP on staff. I know Dr. Hollis currently has one, and if she were to leave, that could create an issue.

That's all I have. I would appreciate help in getting my files back. I can't seem to do that on my own. Are there any questions?"

President Hurst thanked Mr. Dewey for his remarks and announced that there were no other requests from delegations received.

No Board action was taken; informational item only.

#### **4. Communications of Interest – President.**

President Travis Hurst provided several communications of interest highlighting recent College activities and events.

President Hurst reported that in October 2025 he attended Governor Kevin Stitt's annual *Boots, Bandanas and Barbecue* event at the Oklahoma Governor's Mansion, a benefit supporting Friends of the Mansion and preservation of the historic Governor's residence. He noted that the event provided an opportunity for Rose State College to engage with state leaders and stakeholders regarding workforce development and higher education in Oklahoma and expressed appreciation to Regent Majors for extending the invitation.

President Hurst next reported on attendance at the Association of Community College Trustees (ACCT) Leadership Congress held October 22–24, 2025, in New Orleans, Louisiana. He stated that Chairman Croak, Regent Willard, Ms. Michelle Nutter, and he attended the conference, which was themed *Reimagining Community College: Innovation for a Changing World*. He described the conference as a valuable opportunity to gain a national perspective on community college leadership and innovation.

Chairman Croak commented that the conference reaffirmed the strength of Rose State College and its staff, noting that the institution compares very favorably to peer institutions

nationwide. Regent Willard concurred, adding that sessions attended highlighted challenges faced by other colleges that Rose State has been fortunate to avoid.

President Hurst then reported on the College's Veterans Day Celebration held on November 11, 2025. In addition to participation in the Midwest City Veterans Day Parade, the College hosted a ceremony in the FNB Community Bank Ballroom honoring veterans. He noted that faculty, staff, students, community members, and veterans attended the event. The Mid-Del Junior Reserve Officers' Training Corps presented the Colors, and Rose State student Ijahi Jackson performed the National Anthem. The College recognized Capt. Gean Atkinson, U.S. Navy (Ret.), as the 2025 Veteran Honoree and welcomed Capt. John Keilty, U.S. Navy (Ret.), as the keynote speaker. President Hurst stated that both speakers emphasized the bond of service and affirmed the College's strong support for veterans and their families.

President Hurst reported that in August 2025, Rose State College employees Geronimo Parra, Jazmyne Boyles-Vance, Brevin Senner, and Kaitlyn Weldon were named *NextGen Under 30* honorees and were formally recognized at an awards banquet held November 14, 2025, at the Embassy Suites in Norman. He congratulated the honorees and noted that their recognition reflects the talent, leadership, and commitment demonstrated by Rose State employees.

President Hurst next reported on the 2025 Golden Apple Awards Banquet, held November 18, 2025, which recognized outstanding educators who have made a significant impact on students' lives. He announced the 2025 Golden Apple honorees and noted that since the program's establishment in 2001, 260 educators have been honored. President Hurst thanked Regents Croak, Smith, and Mejstrik for attending the event and assisting with the recognition of the honorees.

President Hurst shared that Rose State College's Cybersecurity Associate Degree Program was recently ranked seventh nationally on Programs.com's 2025 list of the *Top 20 Best Associate*

*Degree Programs in Cybersecurity.* He stated that the ranking considered curriculum strength, career outcomes, affordability, and academic reputation and noted that the recognition reflects the dedication of faculty and the strength of the program.

President Hurst also reported that the College hosted its annual Faculty and Staff Christmas Lunch and Craft Bazaar on December 3, 2025, noting that the event provided an opportunity for employees to connect and strengthen campus community morale. He thanked Regents who were able to attend and support the event.

Finally, President Hurst reported that the Oklahoma State Regents for Higher Education held the 2025 Regents Education Program Annual Conference on November 18, 2025, at the Presbyterian Health Foundation Conference Center in Oklahoma City. He noted that sessions addressed topics including board governance, financial oversight, legislative priorities, workforce needs, and Oklahoma ethics and open meeting requirements. President Hurst thanked Regents Clabes, Smith, and Mejstrik for attending on behalf of the College.

No Board action was taken; informational item only.

**6. Staff Reports – Informational Items Only.**

a. Report on the Taiwan-Oklahoma Unmanned Aerial Systems (UAS) Trade Mission – Dr. Whitney Alvis, Chief of Staff. Page 9. (R&T)

Dr. Whitney Alvis, Chief of Staff, presented a report on the Taiwan–Oklahoma Unmanned Aerial Systems (UAS) Trade Mission, which took place September 14–19, 2025. Dr. Alvis explained that the mission included representatives from the Oklahoma Department of Commerce, the Oklahoma Department of Aerospace and Aeronautics, Rose State College, Oklahoma State

University, the University of Oklahoma, the University of Tulsa, the Greater Oklahoma City Chamber, and five Oklahoma aerospace and defense companies, including two Rose State College Business Incubator tenants.

Dr. Alvis provided historical context regarding Taiwan's development as a global leader in technology and manufacturing, including the creation of the Industrial Technology Research Institute (ITRI) in the 1970s. She explained that ITRI plays a central role in research, manufacturing, and business incubation and supports Taiwan's scientific and industrial parks.

Dr. Alvis outlined opportunities presented by Taiwan and ITRI, including technical cooperation, advanced manufacturing capabilities, drone testing, supply chain resilience, and access to Asian markets. She noted particular interest in collaboration related to Blue and Green UAS certification processes and the potential for portions of testing and certification to occur outside the United States.

Dr. Alvis explained that Taiwan's business incubator system is closely tied to ITRI and offers priority access to scientific parks where advanced manufacturing occurs. She discussed how this model differs from Oklahoma's tax-incentive-based approach and highlighted the potential for reciprocal partnerships, allowing Oklahoma companies to enter Asian markets while Taiwanese companies establish a presence in Oklahoma.

Dr. Alvis further discussed why the partnership aligns well with Rose State College, citing cultural compatibility, Oklahoma's planned trade office in Taiwan, opportunities for information exchange, workforce training, and applied research. She also noted potential federal funding and capital opportunities connected to incubator partnerships, including discussions related to Sensitive Compartmented Information Facilities (SCIFs).

Dr. Alvis concluded by noting that the mission created significant opportunities for Rose State College related to workforce development, industry partnerships, and innovation aligned with the College's mission.

No Board action was taken; informational item only.

## **7. Administrative Services – Executive Vice President.**

- a. Request for approval to spend additional funds on the Health Sciences Renovation Project for roof repair. Page 10. (R)

Dr. Kent Lashley, Executive Vice President and Chief Financial Officer, presented a request for approval to spend additional funds on the Health Sciences Renovation Project for roof repair. Dr. Lashley explained that the project includes both an ARPA-funded portion and a non-ARPA-funded portion, noting that the ARPA-funded portion is eligible for reimbursement while the non-ARPA portion is not.

Dr. Lashley stated that the request was for authorization to pay \$202,088.51 for roof repairs on the non-ARPA portion of the Health Sciences building, with funding to come from the College's Capital Fund. He explained that the roof spans multiple sections of the building and that repairs are necessary due to ongoing leaks. Dr. Lashley further noted that the project is being completed through the State of Oklahoma Roofing Asset Management Program (RAMP), which provides a competitive bidding process. He added that the same contractor would complete both the ARPA and non-ARPA portions of the roof repair and that the construction manager is coordinating the work at no additional cost to the College.

During the report, Regent Smith asked for clarification regarding the distinction between the ARPA-funded and non-ARPA-funded portions of the project and the scope of work covered under the ARPA grant. Dr. Lashley responded that ARPA funds may only be used for work included within the approved scope of the federal grant, which covers a larger renovation project

on a specific portion of the building. He explained that the remaining section of the roof is not eligible for ARPA funding and therefore must be funded separately.

Regent Hill asked whether the same contractor would be performing both the ARPA-funded and non-ARPA-funded portions of the roof repair. Dr. Lashley confirmed that the same contractor would complete both portions of the work.

Chairman Croak requested a motion concerning agenda item 7(a). Regent/Trustee Smith moved to approve and was seconded by Regent/Trustee Hill. There were no further questions. The vote was as follows:

Position 1 – absent	Position 5 – absent
Position 2 – aye	Position 6 – aye
Position 3 – aye	Position 7 – aye
Position 4 – aye	

All members present voted aye; none opposed. The motion passed.

b. Request for approval to spend additional funds on the Health Sciences Renovation Project for building access control. Page 11. (R)

Dr. Kent Lashley, Executive Vice President and Chief Financial Officer, presented a request for approval to spend additional funds on the Health Sciences Renovation Project for building access control. Dr. Lashley explained that the Health Sciences building is located adjacent to the interstate and has experienced unauthorized access, creating security concerns during and after construction. He stated that the proposed access control upgrades would provide a modern, comprehensive system securing exterior entry points, classrooms, and office spaces.

Dr. Lashley reported that the request was for authorization to spend \$103,670.33 for the access control upgrades, with funding to come from the College's Capital Fund. He noted that

while a small portion of the work relates to the ARPA-funded renovation, the majority of the access control improvements fall outside the ARPA scope and therefore require separate funding.

Chairman Croak requested a motion concerning agenda item 7(b). Regent/Trustee Mejstrik moved to approve and was seconded by Regent/Trustee Hill. There were no questions. The vote was as follows:

Position 1 – absent

Position 5 – absent

Position 2 – aye

Position 6 – aye

Position 3 – aye

Position 7 – aye

Position 4 – aye

All members present voted aye; none opposed. The motion passed.

- c. Request for approval to execute a Statement of Work (“SOW”) with Drivestream to assist with necessary data extraction integral to the ERP conversion process. Page 12. (T)

Dr. Kent Lashley, Executive Vice President and Chief Financial Officer, presented a request for approval to execute a Statement of Work with Drivestream to assist with data extraction necessary for the College's enterprise resource planning (ERP) conversion from the PeopleSoft system to Oracle Cloud. Drivestream is the consultant currently engaged to support the ERP conversion project.

Dr. Lashley explained that the data extraction process has proven to be complex and time-consuming due to the length of time the PeopleSoft system has been in use and the presence of third-party system enhancements and customizations supporting various institutional functions. He noted that these factors require extensive data cleansing, validation, and technical expertise beyond the scope of existing staff capacity, who must continue to support ongoing operations and compliance requirements while the conversion is underway.

Dr. Lashley stated that the proposed Statement of Work would provide specialized support for data extraction and related programming tasks. He reported that the agreement is projected to be a one-year engagement at a cost of \$285,000 and would be funded through the Rose State College Technical Area Education District.

Chairman Croak requested a motion concerning agenda item 7(c). Regent/Trustee Willard moved to approve and was seconded by Regent/Trustee Mejstrik. There were no questions. The vote was as follows:

Position 1 – absent

Position 5 – absent

Position 2 – aye

Position 6 – aye

Position 3 – aye

Position 7 – aye

Position 4 – aye

All members present voted aye; none opposed. The motion passed.

President Travis Hurst presented the proposed 2026 regular meeting calendar for consideration by the Board. He reported that eight regular meetings were scheduled for the year, with no regular meetings planned for March, July, September, or November.

President Hurst explained that the January meeting was scheduled during the fourth week of the month to avoid conflict with Spring Convocation on January 15–16. He noted that the October meeting was scheduled later than usual to accommodate the external audit and the Association of Community College Trustees (ACCT) Leadership Congress. He further explained that the December meeting was scheduled earlier than usual to avoid the Winter Break period when campus offices are closed. President Hurst added that the fall meeting dates were intentionally spaced to balance audit timing, conference travel, and campus operations while maintaining a steady Board cadence.

President Hurst also reported that the College was exploring the possibility of a Board retreat in March 2026 or September 2026, noting that if pursued, the retreat would be noticed and filed as a Special Meeting in accordance with the Oklahoma Open Meeting Act.

Chairman Croak stated that, unless there were any questions, he would entertain a motion regarding agenda item 10(a). There were no questions or discussion. Upon motion by Regent/Trustee Willard and second by Regent/Trustee Hill, the Board voted on the proposed 2026 regular meeting calendar. The vote was as follows:

**AGENDA ITEM #5c:**

Consent Agenda

**SUBJECT:** Rose State College Technical Area Education District Financial Reports for November 2025

**RECOMMENDATION:**

Recommend approval as part of the Consent Agenda.

**STAFF ANALYSIS:**

Background: The voters of Oscar Rose Junior College (Rose State College) Technical Area Education District voted a two-mill levy on the net assessed valuation of the Technical Area District on March 25, 1969, to provide local financial support toward the total operation of the Technical Programs of the Oscar Rose Junior College.

On March 24, 1970, the voters of the College Technical Area Education District voted to raise the levy from two mills to five mills to provide further local financial support toward the total operation of the Technical Programs of the College. Further, the voters of the District approved the five-mill incentive levy, which became continuously effective in 1995 unless repealed by voters. The district voters also approved a 5.17-mill (Oklahoma County) and 5.15-mill (Cleveland County) building levy in February 2001 and February 2002 for Fiscal Years 2002 and 2003, respectively. In February 2002, the voters of the district also voted that the 5.17-mill (Oklahoma County) and 5.15-mill (Cleveland County) building levy become permanent until such time as the electors rescind the action.

Rose State College shares fifty percent (50%) of the operating, incentive, and building fund levies collected during the fiscal year with Mid-Del Technology Center of the Midwest City-Del City School District. As specified in Oscar Rose Junior College Resolution FY-78, Number Two, dated July 21, 1977, the auditor for the Oscar Rose Junior College Technical Area Education District has indicated that the "Technical Area Education Fund" may be used in total support of the Technical Education Programs.

The Chancellor for the Oklahoma State Regents for Higher Education by letter of July 6, 1977, expressed the opinion that any excess revenue in the "Technical Area Education Fund" could be used for any purpose in support of Technical Education Programs authorized to be carried out at the Oscar Rose Junior College including expansion of building space, purchase of equipment, and major maintenance of buildings.

Financial Report: Technical Area Education District funds are currently deposited in local area banks in the form of a high-yield savings account and an interest-bearing checking account. The financial reports for the Rose State College Technical Area Education District are presented on the following pages. The reports are as of November 30, 2024, and reflect activities for that month.

Dear Board of Regents:

Crawford & Associates is pleased that Rose State College (the College) continues to express its confidence in our firm and our government expertise through the request of this engagement letter. We look forward to continuing our professional relationship with the College and the Board.

The purpose of this engagement letter is to confirm the terms of our engagement for the specific professional services requested at this time (see Exhibit A). Those specific internal audit type monitoring services are the result of a risk-based assessment and analysis approach based on input from the Board, College management, and Crawford & Associates.

The objectives of our services in this engagement are to obtain information and review selected accounting records to determine whether any recommendations are warranted regarding the design of established internal control policies and procedures, and to report on the level of compliance with those policies and procedures as designed based on our test work.

In compliance with our professional standards regarding independence, we will not provide any financial statement audit or other attestation services to the College in conjunction with these services. The internal audit type monitoring services provided by our firm to the College under this agreement will be conducted as consulting services and are not considered an audit or attestation engagement as defined by professional standards.

#### **College's Responsibilities**

The College is, and will continue to be, solely responsible for establishing and maintaining an effective accounting and internal control system, including, without limitation, systems designed to assure compliance with policies, procedures, and applicable laws and regulations.

College management and the Board of Regents will be responsible for establishing the scope of the internal audit type monitoring and consulting services and the resources allocated to the work; such responsibility includes determining the nature, scope, and extent of the internal audit type monitoring and consulting services to be performed by Crawford & Associates, providing overall direction and oversight for each service, and reviewing and accepting the results of the work.

The College agrees that any reports issued by Crawford & Associates in the conduct of this engagement are intended solely for the information and use of College staff, management and the governing body. Any such reports will include wording that describes the limitations on their distribution.

BOARD OF REGENTS

January 22, 2026

**AGENDA ITEM #7c:**

Administrative Services

**SUBJECT:** Request for Approval to Execute a Network-as-a-Service Agreement and Related Network Security Software Purchase

**RECOMMENDATION:**

Staff recommends approval to execute a Network-as-a-Service contract with DHE Computer Systems for a 60-month term, subject to annual review and renewal, in the total amount of \$1,483,738.80, paid in monthly installments of \$24,728.98, and to approve a separate one-time purchase of ClearPass licenses and support in the amount of \$113,779.66, as detailed in the staff analysis.

**STAFF ANALYSIS:**

Rose State College is proposing the adoption of a Network-as-a-Service (NaaS) model to replace existing, aging networking equipment. This approach modernizes the campus network infrastructure and addresses growing operational, security, and financial risks by shifting the majority of required equipment to a cloud-based environment. Core network components—including switches and wireless infrastructure—will be virtualized, enabling the College to scale network capacity efficiently as academic programs and institutional needs evolve. Delivered as a managed service, this model provides enhanced security, cloud-based management, and simplified operations while supporting responsible stewardship of resources through predictable costs, strengthened compliance, improved connectivity, and alignment with the College's IT lifecycle strategy. Collectively, these benefits position Rose State for long-term innovation and student success without compromising fiscal responsibility.

**Rose State College | Network Modernization Initiative**

- Supporting Rose State's Mission**

Rose State College is modernizing its campus network to better support student success, instructional excellence, and institutional reliability through the adoption of Network-as-a-Service.

- Responsible Stewardship of Resources**

This model allows the College to modernize critical infrastructure without a large upfront capital investment, ensuring responsible use of public funds and predictable long-term costs.

- **Sustainable IT Lifecycle Management**  
The solution aligns with Rose State's IT lifecycle strategy by providing ongoing refresh, support, and upgrades as part of the service—reducing aging infrastructure and long-term risk.
- **Secure and Compliant Environment**  
Enhanced security and cloud-based management strengthen the College's compliance posture and protect sensitive academic and institutional data across the campus, including zero-trust network controls and firewall protections.
- **Operational Simplicity for IT Staff**  
Simplified network operations allow Rose State's IT teams to focus on supporting faculty, staff, and students rather than managing hardware refresh cycles and complex maintenance tasks.
- **Improved Campus Connectivity**  
Reliable, scalable connectivity ensures consistent access to instructional technologies, online learning platforms, and student services—supporting both in-person and remote learning environments.
- **Positioning Rose State for the Future**  
This investment establishes a future-ready network foundation that can scale with enrollment, academic programs, and emerging technologies, ensuring Rose State remains competitive and innovative while maintaining fiscal discipline.

The agreement is proposed for a 60-month term, subject to annual review and renewal. The total contract cost is \$1,483,738.80, to be paid in monthly installments of \$24,728.98. In addition, staff recommends a separate one-time purchase of ClearPass, also provided by DHE Computer Systems, in the amount of \$113,779.66 for perpetual licenses and five years of support. ClearPass is licensed independently and is not included in the monthly NaaS consumption model. Collectively, the NaaS agreement provides the network hardware, while ClearPass supplies the operational software, firewall functionality, and required licenses.
