### Report on the Audit of the Financial Statements

#### Opinion

We have audited the financial statements of Rose State College (the College), a component unit of the State of Oklahoma, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the College as of June 30, 2025, and the changes in its financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the College and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Emphasis of Matter

As described in Note 1 to the financial statements, the fiscal year 2025 beginning net position has been restated to reflect the implementation of GASB 101 and a correction of error to accounts receivable. Our opinion is not modified with respect to this matter.

#### Responsibilities of Management for the Financial Statements

The College's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Rose State College's ability to continue as a going concern for one year after the date that the financial statements are issued.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the College's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and other analysis as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the College's basic financial statements. The accompanying supplementary information, such as the combining schedules and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements.

Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary combining schedules and schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated October 23, 2025, on our consideration of the College's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

Management's Discussion and Analysis  
June 30, 2025

## **Introduction**

The discussion and analysis of Rose State College's financial statements provides an overview of financial activities for the fiscal year ended June 30, 2025. Since the management's discussion and analysis is designed to focus on the financial performance based on current conditions, activities resulting in change and other currently known facts, please read it in conjunction with the basic financial statements and footnotes. These financial statements are prepared in accordance with Governmental Accounting Standards Board (GASB) principles.

## **Using This Annual Report**

The accompanying financial statements reflect the activities of Rose State College, its blended component unit, the Rose State College Technical Area Education District (the Tech District), and its discretely presented component unit, the Rose State College Foundation, Inc. (the Foundation). This MD&A, however, focuses only on highlights and explanations of significant changes in financial operations and results for Rose State College and its blended component unit, the Tech District, and will be referred to, in combined form as "the College."

The annual report consists of three basic financial statements: The Statement of Net Position; the Statement of Revenues, Expenses, and Changes in Net Position; and the Statement of Cash Flows.

The Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position reports the results of the operation of the College. When revenues and other support exceed expenses, the result is an increase in net position. When the reverse occurs, the result is a decrease in net position. The College's net position - the difference between assets, deferred inflows, liabilities and deferred outflows - is one way to measure the College's financial condition. The reader will also need to consider other non-financial factors, such as the quantity and quality of student applicants, enrollment trends, student retention, accreditation status, the condition of buildings, academic programming changes and the safety of the campus and other factors, in assessing the overall health of the institution.

These statements report all assets and liabilities at current values except for capital assets which are reported at historical costs less accumulated depreciation. All of the current year's revenues and expenses are reported using the accrual basis of accounting.

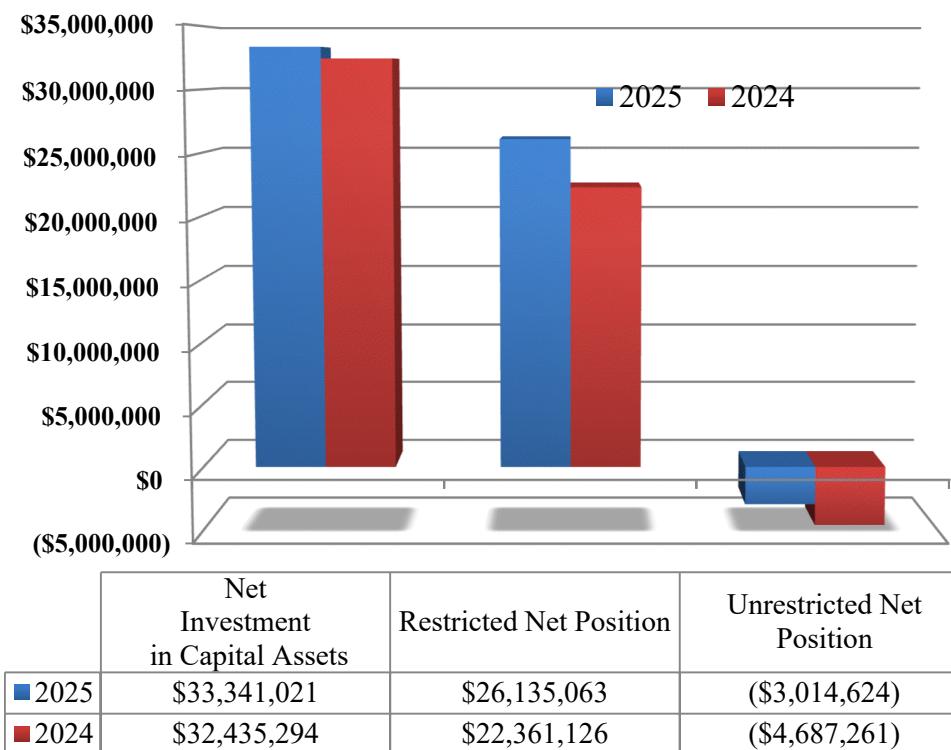

Separate financial statements for the College's component units are also available. Financial statements for the Tech District may be obtained by contacting the College's Executive Vice President. The financial statements for the Foundation may be obtained by contacting their Executive Director.

## Financial Highlights

### **Total Net Position**

This chart provides a graphical breakdown of net position by category for the fiscal years ending June 30, 2025 and 2024.

The College's total net position at June 30, 2025 was \$56.5 million, an increase of \$6.6 million or 13.2% compared to the FY24 results and after a restatement to FY24 for GASB 101 and accounts receivables. Net Investment in Capital Assets increased \$900 thousand mainly as a result of construction using ARPA funding and the regular scheduled paying of debt. The Restricted Net Position increased \$3.8 million largely driven by increased receipts for scholarships and fellowships. Unrestricted Net Position increased by \$1.7 million in FY25 primarily due to changes in the OTRS net pension liability and respective deferred outflows and inflows. Net position is heavily impacted by the effect of pension related funding obligations and actuarial measurements of post-employment benefits. Please see Note #6 and #11 for descriptions of these obligations, the measurement of the recognized liabilities and the impact on the financial statements. Management does not believe that the recognition of these pension and post employment benefit obligations nor the volatility resulting from the actuarial evaluations of those liabilities from year to year constitutes any negative consequence to the true financial condition of the institution. Discussion of the various items that impact the fiscal condition of the College can be found in this MD&A and notes accompanying the statements.

***Results from Operations – Revenue and Expenses***

Total Revenues for fiscal year 2025 increased \$2.3 million or 3.3% compared to fiscal year 2024. The bulk of the increase was in additional State capital appropriations:

- Operating revenue is generated in exchange type transactions, that is the College provides a service or a good to a customer for a payment. For fiscal 2025 Operating Revenue increased by \$2.5 million or 23.6% compared to fiscal year 2024. Operating Revenue made up 18.5% of total revenue in fiscal year 2025 compared to 15.4% of total revenue in fiscal year 2024.
- Non-Operating Revenue involves the receipt of revenue not dependent on an exchange between the College and a customer. The College's three main sources of non-operating revenue are state appropriations, Federal and State grants and reimbursements and ad valorem taxes. Most colleges rely on non-operating revenue to ensure continuing operations. For fiscal year 2025 non-operating revenue decreased by \$1.6 million or 2.8% and made up 77.4% of total revenue compared to fiscal year 2024 when it made up 82.2% of total revenue for the College. The main drivers of the decrease include:
  - A \$600 thousand increase in State appropriations.
  - A \$1.4 million decrease in Federal and State grants used to pay tuition and fees due to decreased HEERF funding received.
  - A \$1.1 million decrease in insurance proceeds received from prior claims.
  - A \$512 thousand decrease in net charter school revenue.
- Other Revenue consists of capital appropriations and Oklahoma Capital Improvement Authority (OCIA) debt service payments made on behalf of the College for bonds that funded capital improvements and building construction. These on-behalf payments require no cash outlay by the College. In fiscal 2025 the OCIA on-behalf payments resulted in \$737 thousand recognized as non-operating revenue, an increase of \$136 thousand. Revenue dedicated to capital funding increased \$1.2 million in fiscal year 2025 compared to fiscal year 2024.

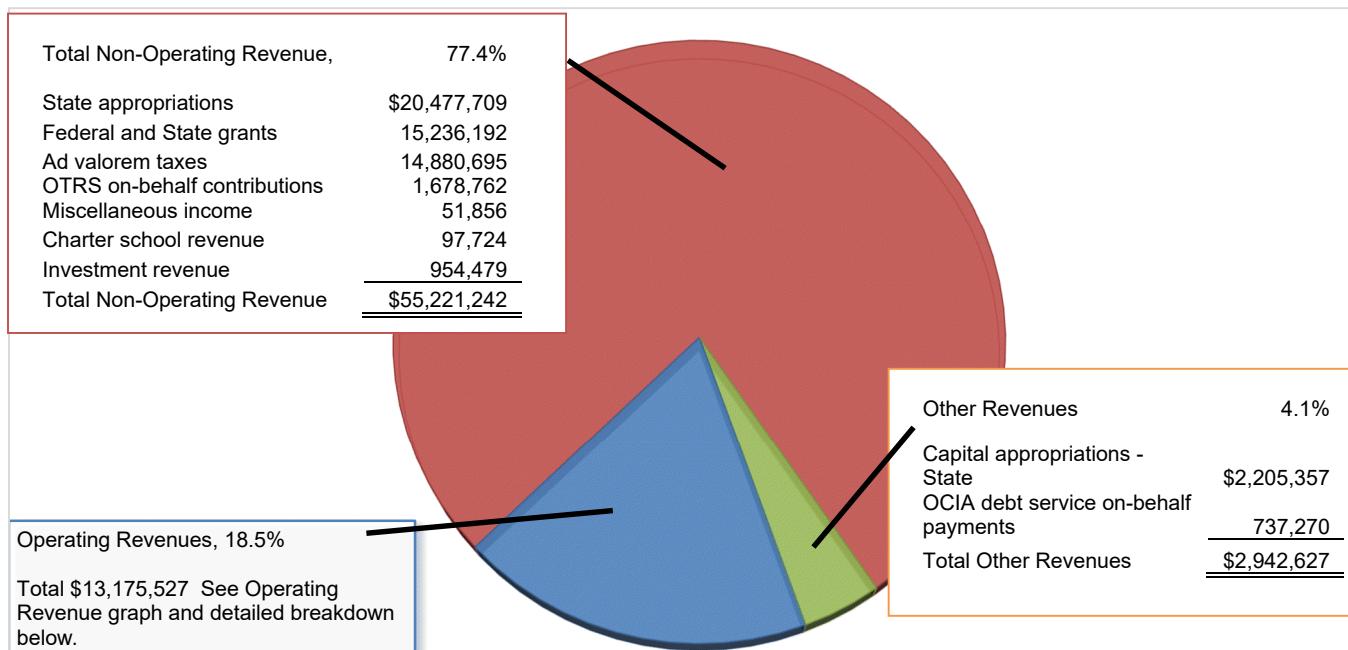

The following table and chart present Total Revenues by category and source followed by a presentation of Operating Revenues by category and source for the fiscal years ending June 30, 2025 and 2024.

Total Operating Revenue	\$13,163,027	\$10,660,904	\$2,514,623	23.6%

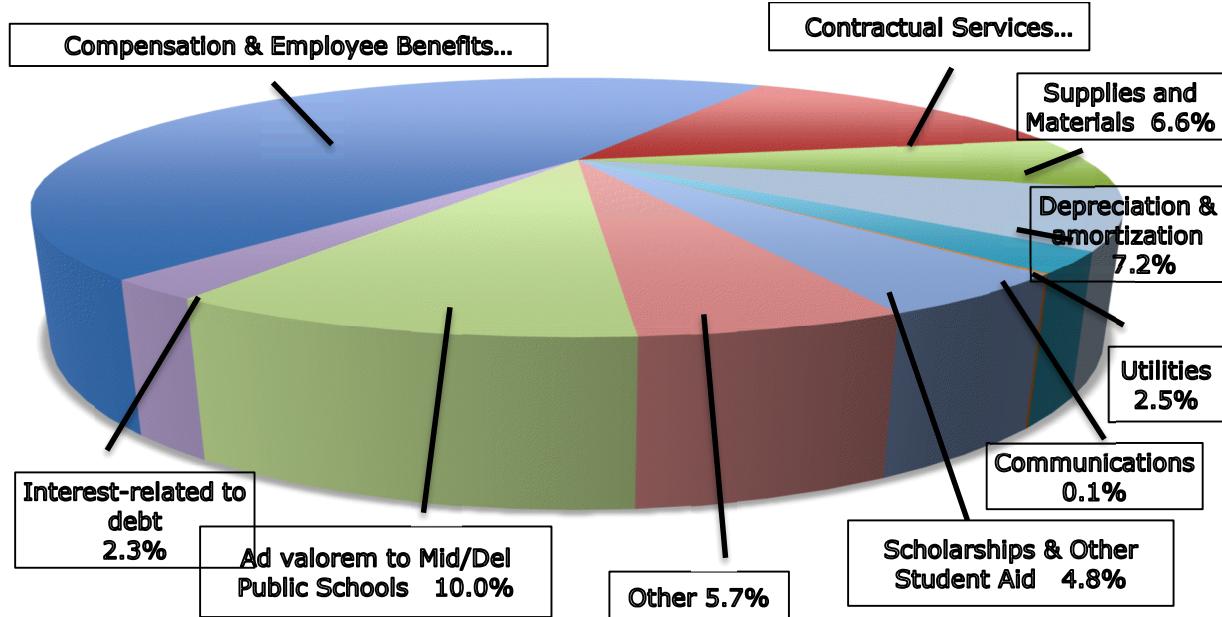

**Total Expenses by Category**

Total expenses for fiscal 2025 were \$64.7 million, a decrease of \$1.8 million or 2.7% compared to fiscal 2024 total expenses of \$66.5 million. The largest portion of this decrease was a \$4.5 million decrease in Scholarships due to HEERF payments to students. There will always be variances in Compensation and Benefits expense as a result of the changes in the actuarial evaluations of the Oklahoma Teachers Retirement System (OTRS) accruals for GASB 68 & 75, GASB 82 reporting standards and the past Presidents' post employee benefits liability. Accruals and adjustments required by these actuarial evaluations effect the Compensation and Benefits expense category.

The following graph and table may be useful in understanding total expenses. These should be evaluated by reading the more detailed Statement of Revenues, Expenses and Changes in Net Position presentation and discussion along with the other financial statements and footnotes.

## Statement of Net Position

The statement of net position presents the financial position of the College at the end of the fiscal year and includes totals of all assets, liabilities and deferred inflows and outflows. Net position and the change between fiscal years may be one indicator of the current financial condition of the College. The fiscal 2025 financial statements show an increase of \$6.6 million or 13.2% in total net position compared to fiscal 2024 and reflects the effects of Pension and Other Post Employment Benefits liability calculations, as required by GASB. This table summarizes the College's Statement of Net Position as of June 30, 2025 and 2024.

Net Position: Balances as of June 30th	Fiscal Year 2025	Fiscal Year 2024*	\$ Change FY25 to FY24	Percent Change

Total net position	\$56,461,460	\$50,109,159	6,352,301	12.7%

\*Prior year balances do not reflect restatement (See Note 1).

- Current assets, in fiscal 2025 decreased by a total of \$262 thousand or 0.6% compared to fiscal 2024. This largely reflects a decrease in unrestricted cash.
- Non-current assets increased by \$1.4 million or 1.7%, in fiscal year 2025 compared to fiscal year 2024. This largely reflects an increase in restricted cash due to increased capital appropriations provided by the State of Oklahoma during FY25.

**Rose State College**  
*(A Component Unit of the State of Oklahoma)*  
Management's Discussion and Analysis  
June 30, 2025

- Total liabilities decreased \$8.0 million or 10.1% between fiscal years 2025 and fiscal 2024. Current liabilities decreased \$703 thousand or 8.3% compared to fiscal 2024. This decrease largely reflects a decrease in unearned revenue for summer charges. Non-current liabilities decreased by \$7.3 million or 10.3% compared to fiscal 2024. This decrease was driven by regularly scheduled debt principal payments and \$5.4 million decrease in actuarially calculated pension and Other Post Employment Benefit (OPEB) liabilities for various employees. See Notes #6 and 11 for a description of the calculation and impact of pension and OPEB liabilities.
- Deferred Outflows and Deferred Inflows should be read in conjunction with the footnotes to the financial statements to understand the nature of the measurements and the impact relating to future periods. For deferred outflows and inflows related to OPEB, please see Note #1 for a short definition of OPEB responsibilities and Note #11 for an explanation of the College's OPEB plans. For deferred outflows and inflows related to pensions, please read footnote #6 to understand the associated actuarial calculation of the unfunded balance of the OTRS and changes reflected in the FY25 financial statements. The deferred outflow and inflow related to debt please see footnote #5 for the discussion on the refinancing and the recognition of the gain/loss on refinancing as shown on the financial statements.

Management's Discussion and Analysis  
June 30, 2025

- Total operating revenues, in fiscal 2025, increased \$2.5 million or 23.6% compared to fiscal 2024. This largely results from an increase of \$1.4 million in tuition and fee collections, \$861 thousand increase in Federal and State grants and \$480 thousand increase in other revenue offset by a decrease of \$259 thousand in auxiliary revenue.
- Operating expenses decreased by \$2.2 million or 3.7% in fiscal 2025 versus fiscal 2024. There were some significant changes when looking at individual categories such as:
  1. Contractual services, supplies and materials increased \$2.5 million as a result of increased costs for the software conversion and other student access and supplies.
  2. Scholarships and other student aid decreased \$4.5 million for fiscal year 2025 compared to fiscal year 2024 reflecting the expenditure of HEERF funding during 2024 that was not repeated in 2025.
- Non-operating revenues (expenses) decreased \$1.9 million or 3.9% in fiscal 2025 compared to fiscal 2024 as a result of the following highlights:
  1. State appropriations were \$601 thousand or 3.0% higher in FY25 compared to FY24 as a result of increased state support.
  2. Federal and State grants were down \$1.2 million or 6.8% as a result of decreased HEERF funding received for student grants.
  3. Other revenue was down \$1.1 million due to decreased insurance proceeds received from State Risk Management.

### **Statement of Cash Flows**

Another way to assess the financial health of an institution is to look at the Statement of Cash Flows. This statement's primary purpose is to provide relevant information about the cash receipts and cash payments of an entity during the fiscal period. The Statement of Cash Flows also assists users in assessing an entity's ability to generate future net cash flows, meet obligations as they come due, and external financing needs.

The College's total cash and cash equivalents for fiscal 2025 increased by \$2.1 million or 4.4% compared to fiscal 2024 results.

## Capital Assets

At June 30, 2025 the College had approximately \$167.0 million invested in capital assets with accumulated depreciation and amortization of \$90.9 million resulting in a net capital asset valuation of approximately \$76.1 million. This represents a net decrease of \$1.8 million or 2.3% compared to fiscal 2024. This decrease in net asset valuation reflects the normal depreciation of capital assets with less overall capital asset purchases during FY25. Please see Note #4 for details of the capital asset investments. The table below summarizes the activity in capital assets, net of depreciation.

## Economic Outlook

Rose State College operates in an environment that is strongly influenced by several external elements, each providing its own impact on the College and its operations.

The condition of the local economy heavily influences the decision and ability to set tuition and fee rates. For FY 2026, after receiving no increase in state appropriations, the College decided to ask the Oklahoma State Regents for a 3% tuition increase as well as two new academic service fees that are related to custom student populations. The College also requested an increase to a lab fee for specific STEM courses. The State Regents approved all the increases, which has brought the cost of lower-level coursework tuition & fees to \$171.45 per credit hour for resident students. The 3% tuition increase for the new Bachelor of Applied Technology Degree in Cyber Security has been increased as well. The new credit hour rates for upper-level tuition and fees are now listed at \$185.35. The mandatory fee charges will remain the same for lower level as well as upper-level coursework. Decisions to change tuition and fees are made after weighing the availability of appropriated state support, students' ability to pay for classes and the projected cost of providing academic instruction and necessary student services. Controlling the students' cost to attend college is one of the guiding principles of the College's Board of Regents and the College management.

**Rose State College**  
*(A Component Unit of the State of Oklahoma)*  
Management's Discussion and Analysis  
June 30, 2025

The condition of the state and local economy also directly impacts college enrollment. Many high school seniors and adult workers must decide whether to, or how to pursue higher education while also being in the workforce. As the local economy continues to recover from the pandemic, there are currently plenty of opportunities for those choosing to enter the workforce. During FY2025 the college experienced an increase in credit hours of 7%. For FY2026 the College hopes to see an increase in enrollment. Opportunities for enrollment expansion continue to be explored and implemented as feasibility proves to be strong. For example, the College is testing the impact of partnerships with STEM technology centers and other higher education institutions in the area of aerospace training and cyber security education. During FY2024 the College received approval to begin offering its first Bachelor of Applied Technology Degree in Cyber Security. In 2026 the College anticipates opening the newly renovated health sciences facility to expand the nursing program, utilizing the recently acquired \$9 million ARPA grant funds.

On-campus housing continues to have high occupancy rates and, with the addition of a new building, offers various housing configurations and multiple price points to make on-campus options available to students. The new student union building continues to evaluate and strategize operations for future growth. Management believes this will provide a strong revenue stream in FY2026 and future periods. These efforts along with the expansion of the nursing program and other STEM and Workforce related projects and improvements will help with student recruitment and retention, as well.

Property values continue to be firm with areas of commercial expansion in the area providing a secure source of ad valorem revenue for the Tech District. The *Ticket to Rose* program, funded with ad valorem tax collections, is a strong incentive for local high school seniors to enroll at Rose State College.

The College is heavily impacted by the state's legislative and political environment due to the strong reliance on legislated appropriations to fund operations. For FY2025, base support from the state was increased by \$287,182 or 1.5%. For fiscal year 2026, state appropriations remained flat with no increase or decrease. The state's economy continues to recover from the effects of the pandemic and its effects on oil and gas production as well as agriculture, yet revenue collections have been strong, and the chance of mid-year revenue failure appears to be very slight. Management continues to monitor the State's collections so it can react quickly, if necessary, to protect the operations of the College.

Given students' reliance on Federal financial aid and the school's opportunities for Federal grant programs, the national political environment also has a direct influence on the College. Discussions on funding priorities and changes to regulations for student financial aid, loans and grants could have a material economic effect on the school.

Overall, the management of Rose State College believes the institution to be in solid financial condition, even as it faces all of these challenges, and is committed to maintaining that position.

**Rose State College**  
**Notes to Financial Statements**  
**June 30, 2025**

**Note 1: Summary of Significant Accounting Policies**

**Nature of Institution**

Rose State College (the “College”) is a two-year college operating under the jurisdiction of a Board of Regents and the Oklahoma State Regents for Higher Education and is a component unit of the State of Oklahoma. Major federally-funded student financial aid programs in which the College participates include the Federal Pell Grant, Federal Supplemental Educational Opportunity Grant, and Federal Work Study programs. Unsecured credit is extended to students.

**Reporting Entity**

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 61, *The Financial Reporting Entity: Omnibus – an amendment of GASB statements No. 14 and No. 34*, the Rose State College Technical Area Education District (the “District”) is presented in the College’s financial statements as a blended component unit because the District’s governing body is the same as the governing body of the College, and the District provides services almost entirely to the College, which is the primary government. Separate financial statements of the District are prepared and may be obtained by contacting the College’s Office of Administrative Services.

Rose State College Foundation, Inc. (the “Foundation”) is a legally separate, tax-exempt, not-for-profit organization formed under the provisions of the Oklahoma Nonprofit Corporations Act. The Foundation’s mission and principal activities are to promote the educational and cultural interest of the College and to enhance higher education in eastern Oklahoma County, Oklahoma. The Foundation is considered a component unit of the College and is discretely presented in the College’s financial statements. Separate financial statements of the Foundation are prepared and may be obtained by contacting the Foundation’s Executive Director.

The College authorizes the Foundation to solicit contributions on its behalf. In the absence of donor restrictions, the Foundation has discretionary control over the amounts and timing of its distributions to the College. During the year ended June 30, 2025, the Foundation provided the College \$311,217 in scholarships, awards, and other program support.

The College, District, and Foundation all have a fiscal year end of June 30.

**Rose State College**  
**Notes to Financial Statements**  
**June 30, 2025**

**Note 1: Summary of Significant Accounting Policies (Continued)**

**Basis of Accounting and Presentation**

The financial statements of the College have been prepared on the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities from exchange and exchange-like transactions are recognized when the exchange transaction takes place while those from government-mandated nonexchange transactions (principally federal and state grants and state appropriations) are recognized when all applicable eligibility requirements are met, and those from imposed nonexchange transactions (ad valorem taxes) are recognized in the period for which the taxes are levied. Internal activity and balances are eliminated in preparation of the financial statements unless they related to services provided and used internally. Operating revenues and expenses include exchange transactions and program-specific, government-mandated nonexchange transactions. Government-mandated nonexchange transactions that are not program specific (such as state appropriations), imposed nonexchange transactions, investment income, and interest on capital asset related debt are included in nonoperating revenues and expenses. When an expense is incurred that can be paid using either restricted or unrestricted resources, the College's policy is to first apply the expense towards restricted resources, and then toward unrestricted resources.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses, and other changes in net position during the reporting period. Actual results could differ from those estimates. For leases the College uses an estimate based on municipal bond rate yield curves as the discount rate unless the rate that the lessor/vendor charges is known.

**Cash Equivalents**

The College considers all liquid investments with original maturities of three months or less to be cash equivalents. At year-end, cash equivalents consisted primarily of pooled funds held by the Oklahoma State Treasurer or Office of Management and Enterprise Services and money market mutual funds on deposit with a trustee.

**Restricted Cash and Investments**

Cash or cash equivalents that are externally restricted to make debt service payments, maintain sinking or reserve funds, purchase capital or other noncurrent assets, or provide scholarships or loans are classified as restricted assets in the statement of net position.

**Rose State College**  
**Notes to Financial Statements**  
**June 30, 2025**

**Note 1: Summary of Significant Accounting Policies (Continued)**

**Investments and Investment Income**

The College accounts for its investments at fair value based on quoted market prices.

Investment income consists of interest income earned from deposits in money market savings, interest-bearing checking accounts and money market funds.

**Ad Valorem Property Taxes**

Pursuant to Oklahoma statutes, the District may cause taxes to be levied against all taxable property in the taxing district. Certain tax levies have been approved by the voters of the taxing district and are utilized for operational purposes, capital projects, and to service certain debt of the District.

Annually, an Estimate of Needs report is submitted to the County Excise Board to determine the ad valorem tax levy. The county assessor is required to file a tax roll report on or before October 1 each year with the county treasurer indicating the net assessed valuation of all real, personal, and public service property (public service property assessed valuations are determined by the Oklahoma Tax Commission). Ad valorem tax is levied each October 1 on the assessed valuation of nonexempt real property located in the District as of the preceding January 1, the assessment date. Ad valorem taxes are due and become a legally enforceable lien on October 1 following the levy date, although they may be paid in two equal installments (if the first installment is paid prior to January 1, the second installment is not delinquent until April 1). Ad valorem taxes are collected by the county treasurer and are subsequently remitted to the District.

The College is subject to ad valorem tax abatements granted by the State of Oklahoma in accordance with the Oklahoma Constitution, Article X Section 6B for qualifying manufacturing concerns.

Under this program, a five-year ad valorem tax exemption exempts all real and personal property that is necessary for the manufacturing of a product and facilities engaged in research and development which meet the requirements set by the Oklahoma Constitution and statutes. In exchange for the five-year exemption, qualifying manufacturing concerns must incur investment costs of \$250,000 or more for construction, acquisition, or expansion of a manufacturing facility. In addition, there are general minimum payroll requirements that must be met and the qualifying manufacturing concern must offer a basic health benefit plan to all full-time employees within 180 days of employment.

The College had no ad valorem taxes abated under this program for the fiscal year.

The State has an Ad Valorem Reimbursement Fund in accordance with Title 62 O.S. Section 193 that is used to reimburse the College for the loss of revenue. Contributions to this fund come from a dedicated tax stream comprised of one percent of net state personal and corporate income tax revenues. The College has no outstanding, unpaid claim for reimbursement from the State as of June 30, 2025.

**Note 1: Summary of Significant Accounting Policies (Continued)**

**Student Accounts Receivable**

Student accounts receivable are stated at the amount billed to the students less applied scholarships and loan proceeds. The College provides an allowance for doubtful accounts, which is based upon a review of outstanding receivables and historical collection information. Tuition is generally due at the beginning of the semester. Late payment fees are assessed throughout the semester. For further information regarding student accounts receivables please see Note 3.

**Capital Assets**

Capital assets are recorded at cost at the date of acquisition or fair value at the date of donation, if acquired by gift. The College's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life of greater than one year. Depreciation is computed using the straight-line method over the estimated useful life of each asset. Assets under lease obligations are amortized over the shorter of the lease term or their respective estimated useful life. Lease and Subscription assets are amortized over the life of the associated contract. The following estimated useful lives are being used by the College and the District:

Land improvements and infrastructure	20 – 30 years
Buildings and improvements	20 – 40 years
Furniture, fixtures, and equipment	3-7 years
Library materials	7 years

**Compensated Absences**

College policies permit most employees to accumulate vacation and sick leave benefits that may be realized as paid time off or, in limited circumstances, as a cash payment. The expense and related liability are recognized as the vacation benefits are earned, whether the employee is expected to realize the benefit as paid time off or as a cash payment. Sick leave benefits expected to be used are also recognized as an estimated liability. Compensated absence liabilities are computed using the regular pay and termination pay rates in effect at the statement of net position date plus an additional amount for compensation-related payments such as social security and Medicare taxes computed using rates in effect at that date.

**Unearned Revenue**

Unearned revenue represents unearned student tuition and fees and advances on grants and contract awards for which the College has not met all of the applicable eligibility requirements.

**June 30, 2025**

**Note 1: Summary of Significant Accounting Policies (Continued)**

**Leases**

The College is a party as lessee for various non-cancellable long-term leases of equipment and vehicles. The corresponding lease payables are recorded in an amount equal to the present value of the expected future minimum lease payments discounted by an applicable interest rate.

**Subscription-based Information Technology Arrangements (SBITA)**

The College is a party as lessee for various non-cancellable long-term subscriptions of information technology arrangements (SBITA). The corresponding subscription payables are recorded in an amount equal to the present value of the expected future minimum subscription payments discounted by an applicable interest rate.

**Net Position**

Net position of the College is classified in three components. Net investment in capital assets consists of capital assets net of accumulated depreciation, and reduced by the outstanding balances of borrowings used to finance the purchase or construction of those assets. Restricted expendable net position is noncapital assets that must be used for a particular purpose as specified by creditors, grantors, or donors external to the College, including amounts deposited with the revenue bond trustee as required by the bond indenture and cash deposits as required by the District's building bond resolution. The Foundation's restricted nonexpendable net position is noncapital assets, such as permanent endowments, that are required to be maintained in perpetuity as specified by parties external to the Foundation. Unrestricted net position is the remaining assets less remaining liabilities that do not meet the definition of invested in capital assets, net of related debt, or restricted expendable or nonexpendable.

**Deferred Outflows and Deferred Inflows of Resources**

Deferred outflows and deferred inflows are the consumption and the acquisition, respectively, of net position by the College that is applicable to a future reporting period. The College's deferred outflows of resources were comprised of changes related to pension and OPEB obligations that are applicable to future reporting periods. The College's deferred inflows of resources were comprised of revenues from the bookstore contract service concession arrangement, gains on debt refinancing and amounts related to OPEB and pension obligations related to experience and investments that are applicable to future reporting periods.

**Classification of Revenues**

The College has classified its revenues as either operating or non-operating revenues according to the following criteria:

***Operating Revenues*** – Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship allowances, (2) sales and services of auxiliary enterprises, and (3) operating grants.

**Rose State College**  
**Notes to Financial Statements**  
**June 30, 2025**

**Note 1: Summary of Significant Accounting Policies (Continued)**

*Nonoperating Revenues* – Non-operating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, and other revenue sources that are defined as non-operating revenues by GASB No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Government Entities That Use Proprietary Fund Accounting* and GASB No. 34, such as state appropriations, ad valorem taxes, charter school fees, and investment income.

**Scholarship Discounts and Allowances**

Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship discounts and allowances in the statements of revenues, expenses, and changes in net position. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the College and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other federal, state, or nongovernmental programs, are recorded as either operating or non-operating revenues in the College's financial statements.

To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the College has recorded scholarship discounts and allowances. The scholarship discounts and allowances on tuition and fees for the year ended June 30, 2025 was \$14,243,943.

**Income Taxes**

The College and District, as political subdivisions of the state of Oklahoma, are exempt from federal income taxes under Section 115(1) of the Internal Revenue Code, as amended. However, the College and District may be subject to federal income tax on unrelated business income under Internal Revenue Code Section 511(a)(2)(B).

The Foundation is exempt from income taxes under Section 501 of the Internal Revenue Code and a similar provision of state law. However, the Foundation is subject to federal income tax on any unrelated business taxable income.

**Pensions and OPEB**

For purposes of measuring the net pension and OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Oklahoma Teachers' Retirement System (OTRS) and additions to/deductions from OTRS's fiduciary net position have been determined on the same basis as they are reported by OTRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Restatement**

The College implemented GASB 101 Compensated Absences in 2025. Due to this implementation the College restated ending net position for 2024 for the addition of accrued sick leave and the corresponding activity. The College also restated beginning net position for a receivable from another State Institution that was missed in the prior year of \$176,400. These resulted in a decrease in beginning net position for FY25 of \$217,969 as follows:

**Rose State College**

**Note 1: Summary of Significant Accounting Policies (Continued)**

**Note 2: Deposits, Pooled Funds, Investments, and Investment Income**

*Custodial credit risk* is the risk that in the event of a bank failure, a government's deposits may not be returned to it. The College's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law requires collateralization of all deposits with federal depository insurance; bonds and other obligations of the U.S. Treasury, U. S. agencies or instrumentalities, or the State of Oklahoma; bonds of any city, county, school district, or special road district of the State of Oklahoma; or a surety bond having an aggregate value at least equal to the amount of the deposits.

At June 30, 2025, none of the District's balances of \$22,627,727 are exposed to custodial credit risk as a result of being uninsured and uncollateralized.

The College maintains its cash in pooled funds held by the Oklahoma State Treasurer or Office of Management and Enterprise Services (OMES). By State statute, the State Treasurer is required to ensure that all state funds are either insured by the Federal Deposit Insurance Corporation, collateralized by securities held by the cognizant Federal Reserve Bank, or invested in U.S. government obligations. The College's cash held by the State Treasurer is pooled with the funds of other state agencies and then, in accordance with statutory limitations, placed in banks or invested as the treasurer may determine.

There is \$28,042,144 in cash and cash equivalents on deposit with the State Treasurer as of June 30, 2025, \$16,053,806 represents the amount held within OK INVEST, an internal investment pool, and \$6,000 represents change funds. Agencies and funds that are considered to be part of the State's reporting entity in the State's Annual Comprehensive Financial Report are allowed to participate in OK INVEST. Oklahoma statutes and the State Treasurer establish the primary objectives and guidelines governing the investment of funds in OK INVEST. Safety, liquidity, and return on investment are the objectives that establish the framework for the day to day OK INVEST management with an emphasis on safety of the capital and the probable income to be derived and meeting the State's daily cash flow requirements. The specifics regarding these policies can be found on the State Treasurer's website at <http://www.ok.gov/treasurer/>. Based on an evaluation of the use and purpose of the College's participation in the internal investment pool, the amount on deposit with OK INVEST is treated as a demand account and reported as a cash equivalent.

**Summary of Carrying Values**

The carrying values of deposits and invested funds shown above are included in the statement of net position as follows at June 30, 2025:

Carrying Value	
Deposits	\$ 34,274,062
Invested pooled funds	16,389,809
Change funds	<u>6,000</u>
	<u><u>\$ 50,669,871</u></u>

**Investments**

The College may legally invest in direct obligations of the U.S. Treasury and the State of Oklahoma.

*Interest Rate Risk* – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The pooled funds held by the state treasurer or OMES and the money market mutual funds are presented with a maturity of less than one year because they are redeemable in full immediately.

*Investment Credit Risk* – Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligation. The College is authorized to invest in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Regents.

**Fair Value Measurement:** GASB establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

- Level 1 inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset and liability, either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3 inputs consist of unobservable inputs which are used when observable inputs are unavailable and reflect an entity's own assumptions about the assumptions that the market participants would use in pricing the assets or liabilities. Real Estate held as investments would be valued as level 3 inputs.

**Investment Income**

Investment income of \$954,479 consisted primarily of interest income for the year ended June 30, 2025.

**2013 Building Bonds Payable**

The District's Building Bonds of 2013, which were issued in August 2013, are general obligation bonds the proceeds of which were used to provide funds for the purpose of making capital improvements and purchasing equipment within and for the benefit of the District. Interest is payable semi-annually on August 1 and February 1 at rates between 0.05% and 7.0%. Principal is due annually on August 1 through August 1, 2028. A continuing annual ad valorem tax levied upon all taxable property within the District area has been pledged to retire bonds and collection of such taxes and interest earned thereon is restricted for this purpose.

Debt service requirements as of June 30, 2025, on the 2013 Building Bonds are as follows:

Year Ending June 30	Principal	Interest	Total to be Paid
2026	\$ 1,690,000	\$ 119,150	\$ 1,809,150
2027	1,690,000	51,550	1,741,550

**2006D/2014C OCIA Note Payable**

The note payable consists of bonds issued by the OCIA to build, improve, and remodel facilities at various higher education and other institutions in Oklahoma. Funds are received from OCIA as needed to fund construction projects. The College's pro rata share of bonds has been recorded as a note payable.

The College's agreement with OCIA provides for specified monthly payments to OCIA for 30 years through August 31, 2035, or until the OCIA bonds and related interest are paid. The Oklahoma State Legislature appropriates monies and makes the monthly payments on behalf of the College which for the year ended June 30, 2024 amounted to \$737,270.

In 2015, the OCIA issued Bond Series 2014C that refunded the 2006D Bonds. The agreement no longer secures the 2006D Bond Issue but now acts as security for the 2014C Bond Issue over the term of the agreement through the year 2035. The agreement restructuring resulted in a reduction of principal, thus the College has recorded a credit of \$921,276 on restructuring as a deferred inflow of resources and was amortized until 2024 when the 2014C was refinanced with the 2024B agreement.

In 2020, the OCIA issued Bond Series 2024B that refunded the 2014C Bonds. The agreement no longer secures the 2014C Bond Issue but now acts as security for the 2024B Bond Issue over the term of the agreement through the year 2035. The agreement restructuring resulted in a reduction of principal, thus the College has recorded a credit of \$939,120 on restructuring as a deferred inflow of resources that will be amortized over a period of twenty years. As of June 30, 2025, the unamortized gain totaled \$831,352.

The scheduled principal and interest payments related to the 2014C and 2024B OCIA payable at June 30, 2025, are as follows:

Year Ending June 30	Principal	Interest	Total to be Paid
2026	\$ 328,287	\$ 213,445	\$ 541,732
2027	372,090	195,936	568,026

**2017A ODFA Payable**

In June 2017, the College entered into a 30-year agreement with the ODFA and OSRHE as beneficiary of a portion of the proceeds from the ODFA State Regents for Higher Education Real Property Master Revenue Bonds, Series 2017A. The College financed \$17,301,000 (including \$800,804 in premium) to renovate the Student Center.

Payments made by the College are forwarded to the trustee bank by OSRHE for future principal and interest payments on the Master Revenue bonds. The ODFA deposits the payments into an interest-bearing sinking fund and may use the interest earnings to reduce the College's future payments.

The scheduled principal and interest payments related to the 2017A ODFA payable at June 30, 2025, are as follows:

Year Ending June 30	Principal	Interest	Total to be Paid
2026	\$ 433,500	\$ 527,669	\$ 961,169

**2018A ODFA Payable**

In June 2018, the College entered into a 30-year agreement with the ODFA and OSRHE as beneficiary of a portion of the proceeds from the ODFA State Regents for Higher Education Real Property Master Revenue Bonds, Series 2018A. The College financed \$9,446,000 (including \$257,129 in premium) to refinance the Housing capital lease for the "Village at Rose State". The refinancing resulted in a reduction of principal, thus the College has recorded a credit of \$2,123,514 on refinancing as a deferred inflow of resources that will be amortized over a period of thirty years. As of June 30, 2025, the unamortized gain totaled \$1,626,647.

**2022A ODFA Payable**

In May 2022, the College entered into a 30-year agreement with the ODFA and OSRHE as beneficiary of a portion of the proceeds from the ODFA State Regents for Higher Education Real Property Master Revenue Bonds, Series 2022A. The College financed \$6,170,000 (including \$208,514 in premium) to refinance the Housing note payable for the "Village at Rose State". The refinancing resulted in an increase principal (but a reduction in overall interest), thus the College has recorded a debit of \$569,082 on refinancing as a deferred outflow of resources that will be amortized over a period of thirty years. As of June 30, 2025, the unamortized loss totaled \$512,015.

The scheduled principal and interest payments related to the 2022A ODFA payable at June 30, 2025, are as follows:

**Note 6: Retirement Plans**

The College's academic and nonacademic personnel are covered by two retirement plans. The plans available to College personnel include the Oklahoma Teachers' Retirement System (OTRS) (the "System"), which is a state of Oklahoma public employees' retirement system, and an annuity plan, which is a privately administered plan. The College does not maintain the accounting records, hold the investments for, or administer these plans.

**Rose State College**  
**Notes to Financial Statements**  
**June 30, 2025**

**Note 6: Retirement Plans (Continued)**

**Oklahoma Teachers' Retirement System (OTRS)**

**Plan Description**

The College, as the employer, participates in the Oklahoma Teachers Retirement Plan - a cost-sharing multiple-employer defined benefit pension plan administered by OTRS. Title 70 O. S. Sec. 17-105 defines all retirement benefits. The authority to establish and amend benefit provisions rests with the State Legislature. OTRS issues a publicly available financial report that can be obtained at [www.ok.gov/TRS](http://www.ok.gov/TRS).

**Benefits Provided**

OTRS provides retirement, disability, and death benefits to members of the plan.

Benefit provisions include:

- Members become 100% vested in retirement benefits earned to date after five years of credited Oklahoma service. Members who joined the System on June 30, 1992 or prior are eligible to retire at maximum benefits when age and years of creditable service total 80. Members joining the System after June 30, 1992 are eligible for maximum benefits when their age and years of creditable service total 90. Members whose age and service do not equal the eligible limit may receive reduced benefits as early as age 55, and at age 62 receive unreduced benefits based on their years of service. The maximum retirement benefit is equal to 2% of final compensation for each year of credited service.
- Final compensation for members who joined the System prior to July 1, 1992 is defined as the average salary for the three highest years of compensation. Final compensation for members joining the System after June 30, 1992 is defined as the average of the highest five consecutive years of annual compensation in which contributions have been made. The final average compensation is limited for service credit accumulated prior to July 1, 1995 to \$40,000 or \$25,000, depending on the member's election. Monthly benefits are 1/12 of this amount. Service credits accumulated after June 30, 1995 are calculated based on each member's final average compensation, except for certain employees of the two comprehensive universities. Upon the death of a member who has not yet retired, the designated beneficiary shall receive the member's total contributions plus 100% of interest earned through the end of the fiscal year, with interest rates varying based on time of service. A surviving spouse of a qualified member may elect to receive, in lieu of the aforementioned benefits, the retirement benefit the member was entitled to at the time of death as provided under the Joint Survivor Benefit Option.
- Upon the death of a retired member, the System will pay \$5,000 to the designated beneficiary, in addition to the benefits provided for the retirement option selected by the member.
- A member is eligible for disability benefits after ten years of credited Oklahoma service. The disability benefit is equal to 2% of final average compensation for the applicable years of credited service.

**June 30, 2025**

**Note 6: Retirement Plans (Continued)**

**Oklahoma Teachers' Retirement System (OTRS) (Continued)**

- Upon separation from the System, members' contributions are refundable with interest based on certain restrictions provided in the plan, or by the Internal Revenue Code (IRC).
- Members may elect to make additional contributions to a tax-sheltered annuity program up to the exclusion allowance provided under the IRC Section 403(b).

**Contributions**

The contribution requirements of the OTRS Plan are at an established rate determined by Oklahoma Statute, as amended by the Oklahoma Legislature, and are not based on actuarial calculations. Employees are required to contribute 7% percent of their annual pay. Participating employers are required to contribute 9.50% of the employees' annual pay and an additional 8.0% for any employees' salaries covered by federal funds. A portion of the contributions received by OTRS are allocated to the Supplemental Health Insurance program, see Note 11. Contributions to the pension plan from the College were \$2,338,086. The State of Oklahoma also made on-behalf contributions to OTRS, of which \$1,678,762 was recognized by the College; these on-behalf payments did not meet the criteria of a special funding situation.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2025, the College reported a liability of \$24,053,113 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2024. The College's proportion of the net pension liability was based on the College's contributions received by the pension plan relative to the total contributions received by the pension plan for all participating employers as of June 30, 2024. Based upon this information, the College's proportion was 0.3651%.

For the year ended June 30, 2025, the College recognized pension expense (benefit) of \$1,579,963 in compensation and benefits expense. At June 30, 2025, the College reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

The total pension liability as of June 30, 2025, was determined based on an actuarial valuation prepared as of June 30, 2024 using the following actuarial assumptions:

- Actuarial Cost Method - Entry Age
- Inflation - 2.25%
- Future Ad Hoc Cost-of-living Increases - None
- Salary Increases - Composed of 2.25% inflation, plus 0.75 percent productivity increase rate, plus step-rate promotional increases for members with less than 25 years of service
- Investment Rate of Return – 7.00%

\*\* The Real Estate total expected return is a combination of Core Real Estate (25% leveraged) and Non-Core Real Estate (100% leveraged)

**Discount Rate**

A single discount rate of 7.0% was used to measure the total pension liability as of June 30, 2024. This single discount rate was based solely on the expected rate of return on pension plan investments of 7.0%. Based on the stated assumptions and the projection of cash flows, the pension plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The projection of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current statutory levels and remain a level percentage of payrolls. The projection of cash flows also assumed that the State's contribution plus the matching contributions will remain a constant percent of projected member payroll based on the past five years of actual contributions.

**Sensitivity of the Net Pension Liability to Changes in the Discount Rate**

The following presents the net pension liability of the employers calculated using the discount rate of 7.0%, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.0%) or 1-percentage point higher (8.0%) than the current rate:

**Pension plan fiduciary net position**

Detailed information about the pension plan's fiduciary net position is available in the separately issued financial report of the OTRS; which can be located at [www.ok.gov/TRS](http://www.ok.gov/TRS).

**Annuity Plan**

All eligible employees of the College can elect to participate in a tax-deferred annuity plan (the "Plan"), a defined contribution pension plan administered by an independent fiduciary. Pension expense is recorded for the amount of the College's required contributions determined in accordance with the terms of the Plan. Contributions made by the College are subject to annual discretion by the Board of Regents. The Plan provides retirement benefits to participating employees and their beneficiaries. Benefit provisions and contribution requirements are contained in the plan document and were established and can be amended by action of the College's Board of Regents. The College's contribution rate for the year ended June 30, 2025, was 2.5% of an eligible employee's annual base salary (as defined in the plan document). Contributions made by the College during 2025 totaled approximately \$386,000.

**Note 7: Academic Support for the Mid-Del Area Vocational-Technical School District I-52 (Mid-Del)**

The Board of Trustees for the District entered into an inter-local agreement with the Midwest City –Del City School Board (Mid-Del) to provide financial support for instruction in specified vocational and technical programs provided at the Lewis Eubanks Technical Center (Tech Center) during fiscal year 2025. The financial support payments, from the proceeds of the ad valorem tax levies (Note 1), is to be made at an amount which is equal to 50% of total collections of the Operational, Incentive and Building millage levied for the respective fiscal year. For the year ended June 30, 2025, the District incurred \$6,499,931 of non-operating expense related to the support of the Tech Center. At June 30, 2025, the District owed Mid-Del \$659,506 which is included in accounts payable. The inter-local agreement providing the financial support is approved by the Board of Trustees for the District annually for the upcoming fiscal year and does not extend beyond the bounds of the specified fiscal year. The Board of Trustees for the District retains the right to review, modify and accept or reject any and all future inter-local agreements.

**Note 8: Charter School Revenue**

The College entered into a contract with Dove Science Academy in the capacity as sponsoring entity pursuant to the Oklahoma Charter School Act (Act), 70 O.S. §3-130, et seq. Pursuant to the Act the College receives 3% of only the State aid portion of the funding.

**Rose State College**  
**Notes to Financial Statements**

**Note 9: Commitments and Contingencies**

The College conducts certain programs pursuant to various grants and contracts that are subject to audit by federal and state agencies. Costs questioned as a result of these audits, if any, may result in refunds to these governmental agencies from various sources of the College.

The College participates in the Direct Student Loan Program (the "Program"). The College is required to perform certain administrative functions under the Program. Failure to perform such functions may require the College to reimburse the loan guarantee agencies. For the year ended June 30, 2025, \$7,422,723 of Program loans were provided to the College's students.

During the ordinary course of business, the College may be subjected to various lawsuits and civil action claims. Management believes that resolution of such matters pending at June 30, 2025, will not have a material adverse impact on the College's financial position.

**Note 10: Risk Management**

The College is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; employee injuries and illness; and natural disasters. The College pays an annual premium to the Risk Management Division of the State of Oklahoma Department of Central Services for its tort liability, vehicle liability, property loss, and general liability insurance coverages. The College carries insurance with the State Insurance Fund for other risks of loss, including workers' compensation and employee accident and health insurance.

**Note 11: Other Post-Employment Benefit Plans**

Currently, Rose State College provides other post-employment benefits to retirees under three post-employment benefit (OPEB) plans:

1. OTRS Supplemental Health Insurance Program – a cost-sharing multiple-employer defined benefit plan administered by OTRS
2. OKHEEI OPEB Plan – a single employer defined benefit health, dental and vision care plan
3. College President's OPEB Plan – a single employer defined benefit healthcare and long-term care plan

**OTRS Supplement Health Insurance Program**

**Plan description**

The College as the employer, participates in the Supplemental Health Insurance Program—a cost-sharing multiple-employer defined benefit OPEB plan administered by the Oklahoma Teachers Retirement System (OTRS). Title 74 O. S. Sec. 1316.3 defines the health insurance benefits. The authority to establish and amend benefit provisions rests with the State Legislature. OTRS issues a publicly available financial report that can be obtained at [www.ok.gov/TRS](http://www.ok.gov/TRS)

**Benefits provided**

OTRS pays a medical insurance supplement to eligible members who elect to continue their employer provided health insurance. The supplement payment is between \$100 and \$105 per month, remitted to the Oklahoma Higher Education Employee Interlocal Group ("OKHEEI"), provided the member has ten (10) years of Oklahoma service prior to retirement.

**Contributions**

Employer and employee contributions are made based upon the TRS Plan provisions contained in Title 70, as amended. However the statutes do not specify or identify any particular contribution source to pay the health insurance subsidy. Based on the contribution requirements of Title 70 employers and employees contribute a single amount based on a single contribution rate as described in Note 6; from this amount OTRS allocates a portion of the contributions to the supplemental health insurance program. The cost of the supplemental health insurance program averages 0.10% of normal cost, as determined by an actuarial valuation. Contributions allocated to the OPEB plan from the College were \$6,894.

**OPEB Liabilities (Assets), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

At June 30, 2025, the College reported an asset of \$427,879 for its proportionate share of the net OPEB asset. The net OPEB asset was measured as of June 30, 2024, and the total OPEB asset used to calculate the net OPEB asset was determined by an actuarial valuation as of June 30, 2024. The College's proportion of the net OPEB asset was based on the College's contributions received by the OPEB plan relative to the total contributions received by the OPEB plan for all participating employers as of June 30, 2024. Based upon this information, the College's proportion was .3651%.

For the year ended June 30, 2025, the College recognized an OPEB expense (benefit) of (\$15,491). At June 30, 2025, the College reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

The total OPEB liability (asset) as of June 30, 2025, was determined based on an actuarial valuation prepared as if June 30, 2024 using the following actuarial assumptions:

- Actuarial Cost Method - Entry Age
- Inflation - 2.25%
- Future Ad Hoc Cost-of-living Increases - None
- Salary Increases - Composed of 2.25% inflation, plus 0.75 percent productivity increase rate, plus step-rate promotional increases for members with less than 25 years of service

**Discount Rate**

A single discount rate of 7.00% was used to measure the total OPEB liability (asset) as of June 30, 2024. This single discount rate was based solely on the expected rate of return on OPEB plan investments of 7.00%. Based on the stated assumptions and the projection of cash flows, the OPEB plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability (asset). The projection of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current statutory levels and remain a level percentage of payrolls. The projection of cash flows also assumed that the State's contribution plus the matching contributions will remain a constant percent of projected member payroll based on the past five years of actual contributions.

**Sensitivity of the Net OPEB Liability (Asset) to Changes in the Discount Rate**

The following presents the net OPEB liability (asset) of the employer calculated using the discount rate of 7.0%, as well as what the Plan's net OPEB liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower (6.0%) or 1-percentage-point higher (8.0%) than the current rate:

	1% Decrease (6.0%)	Current Discount Rate (7.0%)	1% Increase (8.0%)
Employers' net OPEB liability (asset)	\$ (287,992)	\$ (427,879)	\$ (546,724)

**Plan description**

The College's defined benefit OPEB plan, RSC Retiree Benefits Plan, provides OPEB to eligible retirees and their dependents. The College's Board of Trustees has the authority to establish and amend benefit provisions. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

**Benefits Provided**

The College provides medical, dental, and vision benefits to eligible retirees and their dependents through the Oklahoma Higher Education Employee Interlocal Group. The retiree pays the full contribution rate for the retiree's coverages and for any other elected dependent dental and vision coverages. The medical rates for pre-age-65 retirees are the same as the rates for active employees so the benefit being provided is an implicit rate subsidy. Retirees and dependents age 65 or older are provided a Medicare supplement that is not subsidized by the College.

**Employees covered by benefit terms**

At June 30, 2025 the following employees were covered by the benefit terms:

Active Employees	339
Retired participants or beneficiaries currently receiving benefit payments	<u>9</u>
Total	<u><u>348</u></u>

**Total OPEB Liability**

The College's total OPEB liability of \$220,052 was measured as of June 30, 2025, and was determined by an actuarial valuation as of that date.

Actuarial Assumptions- The total OPEB liability was determined based on an actuarial valuation prepared as of June 30, 2025 using the following actuarial assumptions:

**Notes to Financial Statements**  
**June 30, 2025**

**Note 13: Rose State College Foundation, Inc.**

**Nature of Operations and Summary of Significant Accounting Policies**

**Nature of Operations**

The Foundation is a nonprofit organization whose mission and principal activities are to promote the educational and cultural interest of the College, a public institution of higher education. The Foundation's revenues and other support are derived principally from contributions and its activities are conducted in the Midwest City, Oklahoma, area. Members of the College's Board of Regents are associate members of the Board of Trustees and are nonvoting members.

Although the College does not control the timing or amount of receipts from the Foundation, the majority of the Foundation's resources and related income are restricted by donors for the benefit of the College. Because these restricted resources held by the Foundation can only be used by, or for the benefit of, the College, the Foundation is considered a component unit of the College and is discretely presented in the College's financial statements.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses, gains, losses, and other changes in net position during the reporting period. Actual results could differ from those estimates.

**Cash and Cash Equivalents**

The Foundation considers all cash and highly liquid financial instruments with original maturities of three months or less, and which are neither held for nor restricted by donors for long-term purposes, to be cash and cash equivalents.

**Investments and Investment Return**

Investment purchases are recorded at cost, or if donated, at fair value on the date of donation. Thereafter, investments are reported at their fair values in the statement of financial position. Investment in the common funds is valued at fair value based upon the underlying fair value of the funds' equity and debt securities. Net investment gain/(loss) is reported in the statement of revenues, expenses, and changes in net position and consists of interest and dividend income, realized and unrealized capital gains and losses, less investment management and custodial fees.

**Notes to Financial Statements**  
**June 30, 2025**

**Note 13: Rose State College Foundation, Inc. (Continued)**

**Nature of Operations and Summary of Significant Accounting Policies**  
(Continued)

**Investments and Investment Return** (Continued)

Investment return that is initially restricted by donor stipulation and for which the restriction will be satisfied in the same year is included in unrestricted net position. Other investment return is reflected in the statement of revenues, expenses, and changes in net position as unrestricted, temporarily restricted, or permanently restricted based upon the existence and nature of any donor or legally imposed restrictions.

**Collections**

All collections of works of art, historical treasures, and similar assets are capitalized. Items added to the collections are capitalized at cost if purchased or at estimated fair value on the acquisition date, if donated. Collection items sold or removed are reported as unrestricted or temporarily restricted gains or losses depending on donor stipulations, if any, placed on the items at the time of acquisition.

**Income Taxes**

The Foundation is organized as an Oklahoma nonprofit corporation and has been recognized by the Internal Revenue Service (IRS) as exempt from federal income taxes under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3), qualifies for the charitable contribution deduction under Section 170(b)(1)(A)(vi), and has been determined not to be a private foundation under Sections 509(a)(1) and (3). The Foundation is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. In addition, the Foundation is subject to income tax on net income that is derived from business activities that are unrelated to their exempt purposes. The Foundation has determined it is not subject to unrelated business income tax and has not filed an Exempt Organization Business Income Tax Return (Form 990-T) with the IRS.

The Foundation believes that it has appropriate support for any tax positions taken affecting its annual filing requirements, and as such, does not have any uncertain tax positions that are material to the financial statements. The Foundation will recognize future accrued interest and penalties related to unrecognized tax benefits and liabilities in income tax expense if such interest and penalties are incurred. Federal and state income tax statutes dictate that tax returns filed in any of the previous three reporting periods remain open to examination.

**Financial Instruments and Credit Risk**

The Foundation manages deposit concentration risk by placing cash and certificates of deposit with financial institutions believed by management to be creditworthy. At times, amounts on deposit may exceed insured limits or include uninsured investments in money market mutual funds. To date, the Foundation has not experienced losses in any of these accounts. Investments are made by diversified investment managers whose performance is monitored by management and the Investment Committee of the Board of Directors. Although the fair values of investments are subject to fluctuation on a year-to-year basis, management and the Investment Committee believe that the investment policies and guidelines are prudent for the long-term welfare of the Foundation.

**Investment Return**

Total investment return is comprised of the following for the year ended June 30, 2025:

Net realized and unrealized gain	\$ 265,890
Less investment management and custodial fees	<u>(7,533)</u>
	<u><u>\$ 258,357</u></u>

**Fair Value Measurements and Disclosures**

The Foundation measures its investments at fair value using the net asset value (NAV) per share practical expedient.

The following table presents investments measured at fair value based on NAV per share at June 30, 2025:

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Cash and equivalents	\$ 27,227	\$ -	Limited	
Equities	1,992,613	- -		5 business days*

**Capital Assets**

Capital Assets consist of the following at June 30, 2025:

Historical Properties:

Atkinson Heritage Center	\$ 1,400,000
Atkinson Land	850,000
Atkinson Pony Barn	<u>613,000</u>
 Total Capital Assets	 <u>\$ 2,863,000</u>

The properties are not depreciated since they have cultural and historical value that is worth preserving perpetually, and the Foundation is protecting the service potential of the properties.

**Restricted Net Position**

*Net Position with Donor Restrictions*

Net position with donor restrictions at June 30, 2025, consists of funds restricted by donors for scholarships in the amount of \$5,538,301, including the Atkinson Heritage Center property of \$2,863,000.

**Related Party Transactions**

The Foundation and the College are related parties that are not financially interrelated organizations. The College authorizes the Foundation to solicit contributions on its behalf. In the absence of donor restrictions, the Foundation has discretionary control over the amounts and timing of its distributions to the College. The Foundation's contributions to the College during the year ended June 30, 2025 are reported in the Foundation's financial statements as scholarships, awards, and programs of \$311,217. At June 30, 2025, the Foundation had scholarship, awards, and programs payable to the College of \$5,001.

The Foundation receives various administrative services and office space from the College at no cost. The Foundation's office space is provided by the College. During 2025, approximately \$8,000 was recorded as in-kind rent. The Foundation's payroll cost for employees handling all the day-to-day operations are paid by the College. During 2025, approximately \$117,000 was recorded as contributed services, which represent the Foundation's portion of the staff's salaries. These amounts are recorded as in-kind contributions on the accompanying statement of revenue, expenses, and changes in net position.

**Rose State College**  
**Notes to Financial Statements**  
**June 30, 2025**

**Note 13: Rose State College Foundation, Inc. (Continued)**

**Related Party Transactions (Continued)**

The Foundation has entered into an operating lease with the College for the Atkinson Heritage Center property. The purpose of the lease is for the College to use, operate, and maintain the property. The term of the lease is for a period of 99 years. In consideration for use of the property, the College is to pay a nominal rent amount to the Foundation and is to pay all administrative costs (maintenance, insurance, etc.) related to the property.

**Endowments**

The Foundation endowments consist of several individual funds established for a variety of purposes. As required by generally accepted accounting principles (GAAP), net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based upon the existence or absence of donor-imposed restrictions.

*Interpretation of Relevant Law:* In accordance with the requirements of the Oklahoma Uniform Prudent Management of Institutional Funds Act (OUPMIFA), the Foundation will report the market value of an endowment as perpetual in nature. As a result, the Foundation classifies as restricted nonexpendable 1) the original value of gifts donated to the endowment, 2) the original value of subsequent gifts donated to the endowment, 3) accumulations to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added. The remaining portion of the donor-restricted endowment is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by OUPMIFA. In accordance with OUPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- 1) The duration and preservation of the fund;
- 2) The purpose of the foundation and the donor-restricted endowment fund;
- 3) General economic conditions;
- 4) The possible effect of inflation and deflation;
- 5) The expected total return from income and the appreciation of investments;
- 6) Other resources of the foundation;
- 7) The investment policies of the foundation.

*Return Objectives and Risk Parameters:* The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by the endowment while seeking to maintain the purchasing power of the endowment assets. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results which generate a dependable, increasing source of income and appreciation while assuming a moderate to conservative level of investment risk.

**Rose State College**  
**Notes to Financial Statements**  
**June 30, 2025**

**Note 13: Rose State College Foundation, Inc. (Continued)**

**Endowments (Continued)**

*Strategies Employed for Achieving Objectives:* To satisfy its long-term rate of return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives while reducing risk to acceptable levels.

*Spending Policy and How the Investment Objectives Relate to Spending Policy:* The Foundation has a policy of appropriating for distribution each year the equivalent of 4 percent of its endowment fund's fair value as of the immediately preceding July 1. Permitted annual disbursements for scholarships from permanent endowment fund earnings are reviewed by the Budget and Investment Committee annually and submitted to the Board for approval. In establishing this policy, the Foundation considered both the short-term and the long-term expected return on its endowment. This is consistent with the Foundation's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

**Reports Required by *Governmental Auditing Standards*  
and Uniform Guidance**

**Independent Auditor's Report on Internal Control over  
Financial Reporting and on Compliance and Other Matters  
Based on an Audit of the Financial Statements Performed  
in Accordance with Government Auditing Standards**

Board of Regents  
Rose State College  
Midwest City, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Rose State College, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon date October 23, 2025.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditor's Report on Compliance  
for Each Major Federal Program; Report on Internal Control  
over Compliance and Report on Schedule of Expenditures of  
Federal Awards Required by the *Uniform Guidance***

Board of Regents  
Rose State College  
Midwest City, Oklahoma

**Report on Compliance for Each Major Federal Program**

**Opinion on Each Major Federal Program**

We have audited Rose State College's compliance with the types of compliance requirements identified as subject to audit in the OMB Compliance Supplement that could have a direct and material effect on each of Rose State College's major federal programs for the year ended June 30, 2025. Rose State College's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Rose State College complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

**Basis for Opinion on Each Major Federal Program**

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (*Uniform Guidance*). Our responsibilities under those standards and the *Uniform Guidance* are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Rose State College and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Rose State College's compliance with the compliance requirements referred to above.

### **Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Rose State College's federal programs.

### **Auditor's Responsibilities for the Audit of Compliance**

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Rose State College's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Rose State College's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Rose State College's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Rose State College's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Rose State College's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control Over Compliance**

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**Rose State College**  
Notes to Schedule of Expenditures of Federal Awards  
Year Ended June 30, 2025

**Note 1: Basis of Presentation**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Rose State College (the College) under programs of the federal government for the year ended June 30, 2025. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (the Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the College, it is not intended to and does not present the financial position, changes in net position, or cash flows of the College.

**Note 2: Summary of Significant Accounting Policies**

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The College has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

**Note 3: Federal Direct Student Loan Program**

The College participates in the Federal Direct Loan Program (the Program), CFDA number 84.268, which includes the Federal Subsidized Direct Loan, the Federal Unsubsidized Direct Loan, the Federal Graduate Student PLUS Direct Loan and Federal Direct Loans Parents of Undergraduate Students. The Federal Direct Loan Program requires the College to draw down cash; and the College is required to perform certain administrative functions under the Program. Failure to perform such functions may require the College to reimburse the loan guarantee agencies. The College is not responsible for the collection of these loans. The value of loans made during the audit period are considered Federal awards expended for the audit period.

**Note 4: Subrecipients**

During the year ended June 30, 2025, the College did not provide any federal awards to subrecipients.

**Findings Required to be Reported by Government Auditing Standards**

No matters are reportable.

**Findings Required to be Reported by the Uniform Guidance**

**Finding: 2024-001 – Quarterly Public Reporting**

Criteria: Under the Coronavirus Response and Relief Supplemental Appropriations and American Rescue Plan Acts, the Quarterly Budget and Expenditure Reporting forms for Higher Education Emergency Relief Funds (HEERF) I, II, and III must be conspicuously posted on the institution's primary website no later than 10 days after the end of each calendar quarter (October 10, January 10, April 10, July 10).

Condition: The HEERF Quarterly Reports for quarters ended March 31, 2024 and June 30, 2024 were not publicly posted with previously posted quarterly reports when the auditor inspected the University's primary website on July 15, 2024.

Cause and Effect: Management failed to realize that the reporting was still required for the remaining unexpended funds and therefore failed to complete reporting timely based on requirements.

Recommendation: We recommend that management ensures policies and procedures are in place to complete all reporting requirements and ensure completed within required time frames.

Management Response: Management concurs with the finding. The 4<sup>th</sup> quarter – 2023 report should have been the final report. A check box, indicating final reporting, was inadvertently missed. The quarterly HEERF reports have been updated and posted to the Rose State College website.

Status: Corrected for the year ended June 30, 2025.

**Finding: 2024-002 – FSEOG and FWS matching funds**

Criteria: Under Uniform Guidance 34 CFR 676.21 and 34 CFR 675.26, institutions who receive federal funds for the FSEOG and FWS program must provide matching funds for the programs unless they are an eligible Title III or Title V institution and obtain a waiver for the matching requirement.

Condition: The college did not obtain a waiver for the matching requirement for the 2023-2024 financial aid year and did not provide matching funds for the FSEOG and FWS programs.

**Rose State College**  
Summary Schedule of Prior Audit Findings  
Year Ended June 30, 2025

**Cause and Effect:** Previously the college has been automatically selected as being eligible for the matching funds waiver but did not receive one for 2023-2024 and management did not have proper controls in place to verify institution eligibility or if a waiver was received. Due to management being unaware that the college did not receive a waiver for the current year, matching funds were not provided for the programs and the college did not apply for a waiver. The effect of which is that the College could be obligated to repay the matching portion that was drawn in error of approximately \$132,717 as of year-end and has accrued the estimated liability at year end.

**Recommendation:** We recommend that management ensures policies and procedures are in place to verify college eligibility for matching fund requirements and to confirm that waivers are obtained in future years.

**Management Response:** Management concurs with the finding. It was assumed the college would be auto-designated as an eligible institution based on Integrated Postsecondary Education Data System (IPEDS) data. New procedures have been implemented. The college will submit the Title III/V application annually regardless of the IPEDS status.

**Status:** Corrected for the year ended June 30, 2025.
